

Year 5 Power of We Tasks for the Summer Term

**Our Sustainable Development
Goal this year is:**

This term, as part of the Power of We, it is over to you to make a positive difference linked to our sustainable development goal!

Here are some ideas of things that you can do to get involved:

- De-clutter your bedroom and donate any unwanted books or toys to a local charity shop.
- Visit the school or your local library. Choose books by a range of authors looking at celebrating diversity and recommend them to your friends and family.
- Introduce the concept of inequality to any clubs or sport teams you are in outside of school. Ask them to reflect on how to reduce inequalities in their club.
- Help to close the technology gap by teaching someone who is not confident using the internet or smart devices.
- Research action aid for fundraising ideas and lead and run your own fundraising event to raise funds to close the inequality gap.
<https://actionaid.org.uk/events-and-fundraising/ideas-and-inspiration>
- Take an interest in a culture that's different to yours. Create a poster/film and share it with others.

Please speak to an adult at home before doing any of the ideas to make sure you are safe.

When you have completed one of the tasks (or something else), ask your parent or carer to email a photo of you completing the task to year5@barnehurstfederation.co.uk and be ready to talk to your teacher and/or class about what you did!

You've got the POWER!
