

# POWER OF WE

## YEAR 6

Our Sustainable Development Goal this year is **Climate Action**. This term, as part of the Power of We, it is over to you to make a positive difference linked to our sustainable development goal!

*Here are some ideas of things that you can do to get involved:*

- *Plant trees*
- *Go meat free for at least a day every week*
- *If you routinely drive to school, walk, scoot or cycle instead.*
- *Make an activist video with the benefits of going green and share it*
- *Write to your local MP with ideas of what can be done about climate change.*
- *Create a compost bin area in your garden*
- *Encourage your family and others to buy eco products*
- *Ensure everyone turns the lights off/tap off in your house when not being used*

*Please speak to adult at home before doing any of the ideas to make sure you are safe.*

Ask your parent or carer to email a photo of you completing the task to [year6@barnehurstfederation.co.uk](mailto:year6@barnehurstfederation.co.uk) and be ready to talk to your teacher and/or class about what you did.
